Bf3 Mac Download

But you will be disapointed ALOT That screen is big and very nice but the laptop graphics card will be making it look like.. I also don't get people who buy a MAC only to install bootcamp and run Windows I bought my MacBook Air because at the time it was the lightest ultraportable on the market - now, Samsung has a Windows solution, but I'm not sure if they make 11'.. were written with Windows dll's so they don't work in Mac Because of this Adobe instead of remaking those effects for Mac and doing a lot of work just cut them out of the Mac versions.. youtube com/watch?v=xo4BpgfWiBE [youtube com] Look at all the F*<#$ I don't give.. Processor: Core 2 Duo 2 4 GHz or Althon X2 2 7 GHz RAM: 2GB Graphic card: DirectX 10 or 11 compatible Nvidia or AMD ATI card, ATI Radeon 3870 or higher, Nvidia GeForce 8800 GT or higher.. 'The best tank terrain is that without anti-tank weapons' - Russian Military Doctrine niss_Everdeen Enlisted: 2011-10-24 Even then if your stuck with a mac and you really wanna play bf3 I dont think I could do it with the shitty resolution like everyone has already mentioned.. This Battlefield 3™ update contains improvements to the multiplayer portions of the game.. 5w1n3 Enlisted: 2011-10-24

Next time don't listen to the dumbass marketing and buy a product based on what it can do.. digslap Enlisted: 2011-10-27 I Wondered to know if there are going to make the BF3 for MAC or if can i play bf3 in mac with virtual box simmulating a pc with a windows 7 64 bit, I have an imac these are the characteristics 2.. Oh yeah, we can do that stuff on PCs too This Apple ad describes Apple gaming perfectly: https://www.. terrible If you want to play on decent resolution you will need everything to be at lowest settings and most probably wont be able to get even near 60 fps for the native resolution.

Released0 Enlisted: 2011-12-12 You will have to drop the resolution down a bit, you will struggle with only 4gb of RAM and everyone knows that the mobility versions of a GPU (let alone a model as weak as a 67xx series) suck.. You can't play BF3 at all without Origin It's EAs way of force feeding you their software.. terrible If you want to play on decent resolution you will need everything to be at lowest settings and most probably wont be able to get even near 60 fps for the native resolution.. It won't run virtualized It will run but not at full resolution With that card you'll probably need to run at around 1280x720 to 1680x1050.. It won't run virtualized It will run but not at full resolution With that card you'll probably need to run at around 1280x720 to 1680x1050..
